Tempus IV

FIRST CALL FOR PROPOSALS N° EAC/04/2008

Application Form

Joint Project 2008

My project.

NOTABENE

This is a **draft** version of the application form. The final and authentic version will be posted on the Tempus website in mid March.

This version is made available in order to inform interested parties about the information requested herein and the type of documentation that will be needed for the submission of a Tempus IV proposal.

This version of the application form should not to be used for submitting proposals and if used, the proposal will not be accepted.

Registration number (leave empty)

Reception number (ETF JP – nnn – leave empty)

SUBMISSION PROCEDURE

Please read carefully the following explanations and instructions (pages 1-5) concerning the submission of your proposal.

- Applicants are requested to access and download the application form from the internet: <http://ec.europa.eu/tempus>.
- Only applications using the correct form will be accepted and processed.
- Before completing the form, please read the Tempus IV Call for Proposals EAC/04/2008, which can be obtained from the Tempus website at the following address: <http://ec.europa.eu/tempus>.
- Applicants have the choice of submitting the application in English, French or German.
- The application must be word-processed, using a computer. Hand written applications will not be accepted.
- **Applications must be sent by e-mail**, and this version will be used for assessment purposes; changes made after the original submission will not be accepted or considered.
- All signed **original** supporting and administrative **documents** must be sent **by registered mail in one package** (documents sent separately will not be accepted) at a later deadline. Applications sent by post or fax and supporting and administrative documents sent by e-mail (as PDF documents) or fax will not be accepted.
- The deadline for submission of the application form by e-mail is **28 April 2008**, 16:00 Central European Time. Applicants are strongly advised not to leave the submission of their applications until the last possible moment. Applicants should consider that problems arising can only be dealt with during office hours and that technical support will be guaranteed until 16:00 (Central European time) on 28 April 2008. Applicants are therefore strongly advised to submit applications in a timely manner.
- Sections of the application that are not available electronically, for example CVs of external experts or profit and loss accounts, do not need to be sent by e-mail (please see Section VII: Check List at the end of this application form).
- The e-mail-based applications must be sent to:

Tempus-JP-2008@etf.europa.eu

- Following the submission of the application by e-mail, applicants will receive an electronic acknowledgement of receipt by the **5th of May 2008** at the latest, indicating the reception number assigned to the application. This acknowledgement will be sent to the e-mail address from which the application has been submitted.
- The reception number must be indicated in the cover letter accompanying the supporting and administrative documents to be sent by post.
- Applicants should not staple the original supporting and administrative documents and should ensure that the reference numbers indicated on the endorsement letters are in accordance with the ones used in section II, List of Partners.

- The deadline for submission of the original supporting and administrative documents, by post, is the **15th of May 2008, as dated per post mark**. Only those supporting and administrative documents accompanied by a cover letter referring to a valid reception number will be accepted. Please note, that applicants will not receive an acknowledgement of receipt for the submission of their original supporting documents. However, applicants will be contacted in case these documents should not have reached the European Commission by the 30th of May 2008.
- The signed original supporting and administrative documents and one copy thereof must be sent in the same envelope, using registered posting to:

**European Commission
DG Education and Culture
Unit A.5
B-1049 Brussels
Belgium**

- The original supporting and administrative documents and one copy sent by post must be complete in accordance with Section VII: Check List of this application form.
- Applicants should be aware that only postal or courier registration slips indicating the project reception number will be accepted as proof of dispatch.
- Applicants should be aware that upon completion of the selection procedure **all** communication concerning this application (such as information on the decision, the provision of feedback to unsuccessful applicants, etc.) will **solely** take place with the person indicated in this application as “grant applicant” (reference number 1 in section II, List of Partners).
- The information provided in the application is subject to EU legislation on protection of personal data and confidentiality of information. For further information, please check: http://ec.europa.eu/justice_home/fsj/privacy/

NB: Applicants should send an electronic copy of their proposal to the Tempus National Contact Point (for EU-based applicants) and the National Tempus Office (for applicants based in the partner countries). Electronic addresses are available from the Tempus website: <http://ec.europa.eu/tempus>

THE APPLICATION FORM

This application form contains features that allow the automatic transfer of information into the database used for the selection and narrows down the possibility of applicants' possible mistakes.

Applicants will find below some explanations on the structure of the form as well as some instructions on how to fill it in. Should you encounter any problems, do not hesitate to contact the Tempus Department of the European Training Foundation for prompt support to technical problems, at the e-mail address: Tempus-IT-Team@etf.europa.eu. (Tempus_IT_Team@etf.europa.eu)

For content-related queries please contact: EAC-TEMPUS-CALL-2008@ec.europa.eu

How to complete the form:

The structure of the following sections of this form is protected.

- Section I: Declaration on Exclusion and Selection Criteria
 - Agreement on Publication
 - Endorsement Letters
 - Technical Capacity
 - Declaration for Qualifying as Public Body (if applicable)
 - List of National Member Entities (if applicable)
 - Profit and Loss Accounts (if applicable)
- Section II: Basic Data of the Project
 - List of Partners
- Section III: Project Particulars
- Section IV: Summary of the Project
- Section V: Funding requirements
- Section VI: Administrative Documents: Legal entities, Financial identification

Applicants are allowed to fill in only the specific fields, which are **highlighted in grey** while the rest of the form is not editable. There are **free-text fields**, where any text can be inputted (ex: <<Example text field>>), and **selection fields**, where you will have to select from a list of predefined values (ex. Choice 1). As a general rule, in order to type into a field or to select a tick box, click on it with your mouse. You can also easily move from one field to the next using the TAB or arrow keys.

In case the requested information is to be provided in the form of a list, you can start a new line after each individual entry by clicking on the “enter” key, within the same field, as in a normal “word” document.

Please note that some fields are automatically filled-in based on your input in other fields. For instance, you will only have to input the project title once on the cover page, and it will be displayed in all other sections of the application requesting this information. In general, you should always fill in the first field, requesting the information, which will then be copied into subsequent sections. We therefore recommend that you fill in the form starting from the cover page.

In order to ease the navigation in the application form, we recommend using the Document Map feature (from MS Word menu, “View” → “Document Map”)

Beside these general hints please note the following:

- Section II, List of partners:

The form includes a limited number of “boxes” for participating partners and individual experts. Should you plan to involve more partners and/or individual experts than the number provided in this form, please insert their data in the field called: “*Contact details for additional partners*” and “*Contact details for additional individual experts*” (providing the same information as is requested in the protected “boxes” for partners and experts).

- Section V, Funding requirements:

The Summary table n°8 (“*Summary of project funding requirements*”) will be automatically filled in with the total costs of each heading in the relevant tables n° 1-6.

Furthermore, within table n°8, the percentage of co-financing of the project will be verified automatically, once the amount to be co-financed is inserted in the proper field in table n°7.

The following sections need to be completed.

The declarations requested in the following pages [Section I; the "Declaration on Exclusion and Selection Criteria", the "Agreement on Publication", the endorsement letters to be provided and the "Declaration for Qualifying as a Public Body" (where applicable)] should be signed by the grant applicant **and** by the person at the grant applicant's legal entity who is legally authorised to engage the legal entity itself: in case of higher education institutions that means the **rector, vice-rector, president or vice-president**, in case of other legal entities the **minister, secretary-general, chairman, executive director or their deputies**. *Please note that applicants must be legal entities based in the European Union or in Tempus partner countries.*

SECTION I: DECLARATION ON EXCLUSION AND SELECTION CRITERIA*To be completed by the Grant Applicant*

1. We have stable and sufficient resources of funding to maintain our activities throughout the period during which the project is carried out;
2. We are not bankrupt or being wound up, are not having our affairs administered by the courts, have not entered into an arrangement with creditors, have not suspended business activities, are not subject of proceedings concerning those matters, and are not in any analogous situation arising from a similar procedure provided for under national legislation or regulations;
3. We have the professional competencies and qualifications required to complete the proposed project;
4. We have not been guilty of grave professional misconduct proven by any means which the contracting authority can justify;
5. We have not been convicted of an offence concerning our professional conduct by a judgement which has the force of res judicata;
6. We have not been subject of a judgement which has the force of res judicata for fraud, corruption, involvement in a criminal organisation or any other illegal activity detrimental to the Communities' financial interests;
7. Following an award procedure financed by the Community budget, we have not been declared to be in serious breach of contract for failure to comply with the contractual obligations;
8. We have fulfilled obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which we are established or with those of the country of the contracting authority or those of the country where the contract is to be performed.

We, the undersigned, certify that the information given above and in the following project proposal is correct to the best of our knowledge, and that the proposal has been endorsed by the relevant authorities representing the partners.

We, the undersigned, have taken note that if found guilty of false declarations, we will receive financial penalties in proportion to the value of the grants in question.

SECTION III: PROJECT PARTICULARS

This application form requires a general understanding of the Logical Framework Matrix approach and some familiarity with the vocabulary associated with it. Applicants who have never used the approach are therefore advised to familiarise themselves with it and to consult one of the numerous handbooks available on the subject on the internet.

In section III you are required to provide detailed information on your project in the form of **narrative parts** and accompanying **tables**; the information provided should not be repetitive but **complementary**. In the narrative sections you are expected to describe aspects of your project from a strategic and methodological point of view whereas in the tables you are asked to enter into greater detail in relation to aspects such as expected outcomes, activities, inputs and budgetary requirements.

Applicants should note that each proposal will be assessed on the basis of the elements included in this application only. You can include web site references in your application, but the assessment of your proposal will not be based on additional information found on a website but not contained within the application.

III.1 BACKGROUND OF THE PROJECT

A maximum of four pages, (A4 size)

III.1a Problem/s analysis

Please describe the actual situation

- in the Partner Country/ies - if relevant please refer to respective policies, legislation and/or regulations etc.
- of the staffing levels, teaching and language skills, IT skills, number of students/trainees, condition and level of equipment, facilities and infrastructure etc. at the partner institution/s or organisations that will benefit from the project, as appropriate.

Your information should be descriptive and specific to the subject of the proposal.

You should present the justification for the project and clearly identify the specific problem/s which the proposed project intends to solve.

Explain why this/these problem/s has/have been selected to be addressed, as opposed to others, and how the project proposal fits into the development strategies of the involved partners.

Also, please describe briefly how your project proposal was prepared.

sfgdsg

III.1b Presentation of the partners and external experts

In this section you should explain why the selected partners are best suited to participate in the project and describe their particular expertise in relation to the project objectives. Partners should be chosen due to their specific capacities, expertise and experience necessary to achieve the project objective. Please focus on elements which are essential for the project, such as

- particular capacity and expertise
- relevant previous experience
- contacts beneficial to the project etc.

In case of involvement of external experts, please describe their specific expertise and contribution to the project.

sfg

III.2 THE PROJECT

A maximum of four pages , (A4 size).

Having already identified the problems and needs in Section III.1a, in this narrative part you should describe the project fully. It must be clearly and directly related to the identified problems.

Address as appropriate the following points in your description of the project:

- academic content
- pedagogical methodology
- involvement of academics, students and stakeholders at large
- quality assurance processes
- convergence with EU higher education policies

For example, present:

- a clear definition of what the duration and structure of new or up-dated course/s will be, identify any innovative subjects which will be introduced as a result of project activities and a description how the project activities will progress over time
- an explanation of which groups will be involved (for example, administrative/academic/students and/or their representatives,) and how they will be involved, as project staff or as target group
- a clear indication of how many training courses will be prepared and delivered during the project life and forecasts of how many people will be trained and a description of the improved and new skills that will be acquired by the trainees;
- a description of new (teaching) methodology/ies and new equipment to be introduced and of how they will contribute to teaching, learning and managing (Joint Projects) or policy development, system change and legislation (Structural Measures)
- a description of what changes will be introduced at institutional level as a result of the activities;
- the number and duration of mobilities, etc.

You must clearly indicate the working methodologies and processes to be used.

The outcomes that will be achieved in each year should be described and information on the activities, and the resources that will be required to achieve them, should be provided.

sfgsdf

III.3 PROJECT OBJECTIVES, OUTCOMES AND ACTIVITIES (LOGICAL FRAMEWORK

MATRIX – LFM)

In order to plan and structure the project's objectives, outcomes and activities as thoroughly as possible, you are expected to complete an LFM (maximum of 2 pages), which represents a synthesis of the project. The LFM is a tool which provides an overview of the project and can assist in the design, planning, implementation and monitoring of a project. Please use the table provided further below.

Details provided in the table should complement the information previously explained in the project narrative (section III.2).

In addition to the project overview, which summarises the objectives and activities in the first column, you are requested to provide details on other aspects, such as indicators of progress, risks and assumptions.

Wider objective:

Give an indication of the medium / long-term aim to which the project is designed to contribute.

Example: To ensure that the targeted Partner Country university is in a position to offer education which is targeted towards the changing needs of the economic environment.

Project-specific objectives:

State the specific objectives of the project. The specific objectives should indicate what is expected to have been achieved by the end of the project. The objective of your project should be "SMART": Specific, Measurable, Accurate, Realistic and Time-bound.

Example: To bring undergraduate curricula, teaching methods and library facilities at the Faculty of Economics of the University of xxx into line with the Bologna requirements by December xxx.

Outcomes - Outputs:

The outcomes and outputs to be produced during the project implementation should be listed in concrete terms. They should be logically linked to each other *and*, once again, they should be specific, realistic in relation to the duration of the project and measurable in so far as this is possible. Producing all planned outcomes and outputs will mean that the project objectives have been attained as planned.

Assign reference numbers for each outcome and each output. These will be needed for the work plan (section III.4)

Outputs are tangible and outcomes are rather intangible.

An output (tangible) could be, for instance, newly developed teaching materials for the MSc degree in Management & Business.

An outcome (intangible) could be, for example, all the experience gained in a project such as skills of management of trans-national partnerships, methods with which the final products were developed or methodologies used.

Activities:

The achievement of an outcome/output implies the completion of a set of related activities. Indicate which activities are planned to achieve each outcome/output.

Assign subordinate reference numbers for each activity (see above). These will be needed for the work plan.

Inputs:

Inputs should be expressed in terms of the human resources, equipment, materials and travel considered necessary to perform the activities intended to produce the desired outcomes/outputs.

Example: *Two librarians from D to UKR for 3 weeks (costs of stay and travel costs); 1 part-time secretary in the co-ordinating consortium member for 6 months (staff costs); 5 computers, 2 printers at beneficiary university (equipment).*

Inputs should be appropriate and sufficient to undertake the planned activities.

Indicators of progress:

These are the “sign-posts” that will be used to measure the performance of the project throughout its life-cycle. These preliminary indicators are likely to be reviewed or supplemented by more specific indicators once a project is operational.

Indicators should be specific in terms of quantity, quality, time and target group.

Indicators provide a basis for the monitoring of the project’s progress and should therefore be considered as an ongoing evaluation mechanism within the project.

Assumptions and risks:

Please mention in this section any factors (that is, situations, events, conditions or decisions) which are necessary for the success of the project activities, outcomes or objectives, but which are not directly under the control of the partnership. You should see these as situations or events that you think might occur. The more these situations/events are beyond the control of the partnership the higher the risk which is posed to the project if they occur.

Example: *That accreditation of the new curriculum might not be granted by the national authorities.*

For those identified risks, which are internal to the partnership, such as for example lack of EU language skills of partner country university staff, lack of interest from students, lack of time of university teaching staff, the partnership should foresee and indicate in the application means and activities to counter-act these risks.

III.4 WORKPLAN

Please use the model provided. Applicants are expected to complete a one-page work plan for each project year.

For each year of your project proposal, please complete a work plan indicating the deadlines for each outcome and the period and location in which your activities will take place. Please create additional work plan tables if further space is needed.

The same reference and sub-reference numbers as used in the logical framework matrix must be assigned to each outcome and related activities.

M1 = first month of the project year; 12 M = 1 year; 4 weeks = 1 M. Please use one symbol (= / X) to represent one week.

III.5 OUTCOME & ACTIVITY TABLES

The outcome tables enable you to give precise details on each expected outcome and the related activities. You should also provide details on the resources needed for each outcome. Please create additional tables if further space is needed.

The following types of information will be required:

- Please fill in the same title and reference number for each outcome as provided in the Logical Framework Matrix.
- Please include assumptions and risks for each outcome where relevant.
- Please provide a representative title for each activity together with a sub-reference number, starting and ending date.
- An adequate description of each activity; what will be done, when, where and how.
- The partner/s or experts who will carry out an activity should be stated, specifying which staff from which of the partners will be responsible for and carry out each single activity (e.g.: Senior administrative staff from university A; the rectorate of university B; finance officers from institution C; quality control staff from institution D, etc.). It is not sufficient to merely list some (or all) partners.
- For each activity a target group must be clearly identified. A target group is composed of the direct beneficiaries of the activity and could typically include one or more of the following: Academic staff of a given department, university administrative staff, students, trainees participating in a training course, etc. Please quantify your target group and state precisely who they are and where they are located (e.g.: 5 librarians of university A; 20 secondary school teachers, 25 students from the institutions B, C and D; 10 administrators at the Ministry of Education; etc.). This is particularly important for projects in which several Partner Country institutions are involved.
- All the resources (financial, human, material) needed to execute an activity must be described in the “Input” row. The information provided should be specified and itemised. For staff costs please provide information on the type of staff, where they come from and what the hourly rates are (e.g.: x academic staff from EU institution A multiplied by x hours multiplied by x Euro). In case of staff and student mobilities, you must indicate the number of people, the direction and duration of each of the mobilities (e.g.: 5 PC staff to EU institution A for B number of weeks). For equipment, you should quantify and describe the equipment needed for each activity (e.g.: 15 computers and 1 network printer).
- For each outcome you should indicate the types of expenditures that will be necessary by filling in the “related costs” table at the end of this section. You should not duplicate expenditure under more than one outcome, as the sum of the total budget required for each outcome should correspond to the totals indicated in Section V, Table 8, ‘Summary of project funding requirements’.
- Overheads should be accounted for only once, under the outcomes and activities table for ‘Management of the Project’.
- For Dissemination and Sustainability, Quality Control and Monitoring, and Management of the Project, you must also provide a description of the strategy you will adopt

III.5.1 DISSEMINATION

A maximum of one page A4

Please describe the dissemination strategy the partnership will follow in order to ensure that positive results will be made available both within and outside the Partner Country institutions during the life of the project.

Describe what type of dissemination actions your partnership envisages in order to make the outcomes available to groups not directly involved in the project. This could include information sessions, training exercises or the involvement of policy-makers not belonging to the partnership.

Please consult the Tempus handbook "**Sustainability through Dissemination**" for guidance on how to plan and implement this activity. It is available at http://ec.europa.eu/education/programmes/tempus/doc_en.html in the section "Thematic publications".

III.5.2 SUSTAINABILITY

Identify the activities and results that are to be maintained

To anticipate the sustainability of your project, please describe, in table A below, under "long-term perspectives", the project's activities or results that are supposed to last and/or be disseminated after the end of the EU funding.

Sustainability may not concern all the aspects of a project. In each project some activities or outputs may be maintained, while others may not be so necessary to maintain. A project can therefore be considered as sustainable if relevant activities are pursued and outputs are maintained or developed after the end of the EU funding (i.e. duration of new courses, up-dating of new tools...).

In table B below, please estimate the cost of the project's activities that are to be maintained and the way they could be financed.

Anticipate the main sustainability factors in your project

In the section C below, please list the main context factors to take into account to ensure your project's sustainability. They can have a positive or a negative influence on sustainability, depending on the specific characteristics of each context. These factors are context level factors, that is, elements external to the project itself but which you may influence somehow:

Main context level factors:

1. Academic and/or Institutional support
2. National support
3. Socio-economic support

Please complete section D below by describing how you intend practically to ensure the sustainability of your project, that is how you intend to take into account the context level factors (see section C below) as well the main project level factors:

Main project level factors:

1. Quality of project design in meeting academic, professional and/or social needs
2. Involvement of partners: sense of ownership and motivation
3. Effective management and leadership
4. Active participation of the audience (direct target groups)
5. Capacity for securing adequate resources for continuation

Please consult the Tempus handbook "**Handbook on the sustainability of international higher education co-operation projects**" for guidance on how to plan for and ensure sustainability. It is available at http://ec.europa.eu/education/programmes/tempus/doc_en.html in the section "Thematic publications".

C. Analysis of opportunities and threats related to sustainability

Please list the main factors to take into account to ensure the sustainability of your project; academic, institutional and/or socio-economic factors:

D. Provisions made to enhance potential sustainability

Please describe here which practical steps you foresee in order to ensure the sustainability of your project :

E. Activities devoted to sustainability during the project's life time and requiring specific finance

Amongst specific activities which are to be implemented during the project's life time in order to ensure its sustainability, some may require finance: for example specific dissemination to potential financiers, specific activities to obtain accreditation, etc.

Please complete the following tables for each of the activities to be financed in order to ensure future sustainability:

III.5.3 QUALITY CONTROL AND MONITORING

A maximum of half page, A4 size

Quality control and monitoring should be an integral part of all project activities and results. Please use this section to describe your overall internal and external quality control and monitoring strategies/methods by providing information on the following issues:

- How will the timely achievement of the planned outcomes be demonstrated/measured in an objective and quantifiable way?
- Which are the adjustment mechanisms foreseen in case the quality differs from the one expected or if the outcomes will not be achieved on time?
- Please describe the concrete evaluation measures and the identified responsible actors.

Mechanisms for quality control and monitoring could include, for example,

- peer reviews
- evaluation surveys
- internal institutional evaluation boards
- external accreditation boards.

In the case of Curricular Refrom projects, quality can be encouraged through student evaluations, mandatory accreditation of all new/modified study programmes and increased recognition on an international level.

Inter-Tempus project coaching is highly recommended; partnerships may contact the members of running and/or completed Tempus projects in a similar field in order to use their accumulated expertise and to undertake a peer review. For details of running/ completed projects, applicants should consult the internet at the following address: http://europa.eu.int/comm/education/programmes/tempus/index_en.html.

Applicants may also contact the National Contact Points (European Union Member States) and/or the National Tempus Offices (Tempus Partner Countries). Costs for Inter-Tempus project monitoring may be covered by the category “Other Costs” up to a maximum of €2500 per project and cover fees, travel and subsistence. Resulting monitoring and quality reports undertaken must be included in the relevant Technical Implementation Report.

III.5.4 MANAGEMENT OF THE PROJECT

A maximum of one page, A4 size

Please provide a clear indication of the **role and responsibility** within the project of **each** member of the partnership and, where appropriate, of each individual expert.

Applicants should give a forecast of the tasks that will have to be performed in each project year in order to guarantee effective and efficient project management. This section should also indicate the working hours needed for project management.

In addition, you should explain how the overall project management will be implemented making specific reference to the management structure of the partnership, how decisions will be taken (reference should be made to decision-making mechanisms/bodies and their roles in case of divergent opinions) and how the partnership proposes to ensure permanent and effective communication and reporting.

SECTION V: FUNDING REQUIREMENTS

In Tables 1 to 6 which follow, you are asked to provide estimates of the costs of your project (**total project costs**). Please complete the tables below, assigning costs to the headings "Staff Costs", "Travel Costs and Costs of Stay for Staff and Students", "Equipment Costs", "Printing and Publishing Costs", "Other Costs" and "Indirect Costs" (Overheads).

Applicants should note that the total **project costs** consist of the operational or direct costs (tables 1-5) and of the overheads or indirect costs (table 6). Indirect costs can be granted up to a flat rate of 7% of the total eligible direct costs.

In Table 7 you are asked to provide a detailed estimation on the amount to be co-financed by the partners, which must equal to at least 5% of the total eligible direct project costs.

Table 8 presents the sum of the figures in the previous tables which are aggregated automatically from the data you provided therein. Below the summary table, messages will appear telling you whether or not you have complied with the financial ceilings set out in the first Call for Proposals EAC/042008 under Tempus IV.

Table 9 shows the breakdown of the income with which the project will be financed; that is from the partnership's own resources and from the Tempus grant and the flat-rate grant for indirect costs.

The total project costs will be referred to as "total eligible costs" hereafter.

Tempus co-finances 95% of the total eligible direct costs of a project and grants a flat-rate for indirect costs of 7% of the total eligible direct costs:

- The **minimum grant size** for Joint Projects is **€ 500,000**. The **maximum grant size** is **€ 1,500,000**.
- In the case of Albania, Montenegro and the five Central Asian countries, the **minimum** grant size for national Joint Projects is set at €300,000
- Joint Projects can have a duration of up to three years (36 Months)

The budget plan should be consistent with project duration and with the details of the project description. All amounts must be expressed in Euro (€).

The following ceilings should be applied:

- Equipment: maximum 30% of the total eligible direct costs;
- Overheads / Indirect costs: maximum 7% of the total eligible direct costs.

Applicants should be aware that the non-compliance with the budget ceilings indicated in the call for proposals 2008, may lead to a lower assessment grade or even the failure of the proposal to be selected for funding.

Please do not use any decimals and do not use “thousand separators”. The figure “one thousand” should be indicated with consecutive digits: 1000 and NOT 1,000 or 1.000 or 1 000 or 1000,00

Table 1: Staff costs

The table below refers to the costs for both the academic and administrative personnel involved in the project.

Please note that local rates must be used. For further details on eligible staff costs please refer to the Annexes 1 and 2 of the Tempus IV Call for Proposals EAC/04/2008.

** Please provide specific calculations, e.g.: Lecturers of Partner Country Universities A and B x X number of hours x Y Euro per hour equals Z, etc.*

Table 2: Costs of Stay, Travel Costs, Institutional costs

For maximum costs of stay, please refer to the Tempus IV Call for Proposals EAC/04/2008, Annex 3. The partnership should additionally calculate estimated travel costs and should indicate the total for both costs of stay and travel.

Please indicate in this table which mobilities are planned throughout the whole project duration

Flows to EU institutions:	A maximum of €500 per student for a study period of maximum 3 months
Flows to Partner Country institutions:	A maximum of €200 per student for a study period of maximum 3 months

* Please note that one flow equals one two-way journey. In the case of group travel, each person should be considered as an individual flow (5 staff travelling to the same project meeting = 5 flows). Should an individual carry out several visits, each visit should be considered as 1 flow (Prof X participating in 3 coordination meetings abroad = 3 flows).

** In this direction Tempus funds may only be used for mobilities of EU partners and/or EU individual experts travelling to Partner Countries.

*** Institutional costs are eligible for “student study periods” **abroad** only.

NB: Be sure to include visa costs in your calculations of travel costs in this section.

Table 3: Equipment costs

the maximum budget allowed for equipment costs is 30% of the total eligible direct costs

Please give details and quantify items of equipment needed for the activities, listing them clearly by the partner country university/ies at which each item will be installed.

You should ensure that these details correspond to those given in the Outcome Tables. Please remember that only partner country universities may benefit from equipment funding.

Table 7: Summary of co-financing requirements

Applicants must provide co-financing. Co-financing must be at least 5% of the total eligible direct costs.

Applicants should specify through which resources (their own, from other EU Institutions or EU Member States, other organisations) they intend to co-finance the project, and what the co-financing is likely to cover.

NOTABENE: Overheads/indirect costs, the costs of premises (purchase, rent, heating, maintenance, repairs etc.), the purchase of office and/or classroom furniture and exchange losses do not represent eligible costs and thus **may not be declared under the heading co-financing**.

A.2 Financing at most of 95% of the total eligible direct costs (from the EU)	€0
A.3 Maximum 7% of the total eligible direct costs (from the EU)	€0
TOTAL FROM TEMPUS (A.2 + A.3)	€0
TOTAL PROJECT FINANCE (A.1 + A.2 + A.3)	€0

!ATTENTION! Not less than 500,000 € may be requested as Tempus Grant except for Albania, Montenegro, Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, Uzbekistan, that have a minimum grant size of 300,000 €

!ERROR! - The Co-financing amount (A.1) represents less than 5% of the Total Eligible Direct Cost. At the current level of costs requested from Tempus programme, at least €1 should be co-financed

I have verified the amounts reported in the summary table above (Table 8 - Summary of project funding requirements) and checked that these comply with the Tempus ceilings and thresholds specified in the Tempus IV Call for Proposals EAC/04/2008 and restated at the beginning of Section V – Funding Requirements.

NB: In rare cases the settings of the automatic calculation of the above summarising table might not work properly. Applicants are therefore advised to counter-check their figures, using a calculator.

SECTION VI: ADMINISTRATIVE DOCUMENTS

On the following pages you will find two different forms to be filled out concerning the legal status of the applicant – the so-called "Legal Entities" forms:

- (1) a form for "Public Entities"
- (2) a form for "Private Companies"

Please note that:

Organisations and institutions whose founding act is based on public law (such as resolution, law, decree or decision etc.) have to fill in the form for "Public Entities".

whereas;

Not only companies but also organisations and institutions whose founding act is based on private law (such as registration, agreement, contract, declaration of association etc.) have to fill in the form for "Private Companies" – even if they are not a company.
